Vocabulary: Sky Words

#		Word	Definition
1		sun	the big bright star that gives us light and warmth in the day
2		moon	the round white thing we see in the sky at night
3		star	a tiny bright light in the night sky; there are billions of them
4		cloud	a white or grey shape in the sky made of tiny water drops
5		rainbow	a curve of colours in the sky that appears after rain when the sun shines
6		sky	the blue space above the earth where we see the sun, moon, and stars
7		rain	water that falls from clouds
8		wind	air that moves; you can feel it but you cannot see it
9		lightning	a bright flash of light in the sky during a storm
10		sunrise	when the sun comes up in the morning and the sky turns orange and pink

Four Types of Sky

Daytime Sky

Blue sky. Bright sun.
White clouds. Birds fly.

Night Sky

Dark sky. White moon.
Stars twinkle. Quiet.

Stormy Sky

Grey and dark. Rain falls.
Lightning flashes. Wind blows.

Rainbow Sky

Rain stops. Sun comes out.
Red, orange, yellow, green, blue, purple!

Story: Zara Looks at the Sky

My name is Zara. I am seven years old. I love looking at the sky!

In the morning, I wake up early. I look out of my window. I can see the sunrise. The sky is orange and pink. It is so beautiful! The sun comes up slowly. Now the sky is blue.

I go to school. I look up. There are white clouds in the sky. One cloud looks like a rabbit. Another one looks like a big ship!

After lunch, the sky changes. It gets dark. Grey clouds come. The wind blows my hair. Then it starts to rain. Big drops fall on the window. Tap, tap, tap!

Then I see a flash! Lightning! It is bright and fast. I count: one, two, three... BOOM! Thunder!

After the storm, the rain stops. The sun comes out again. And then I see it — a rainbow! Red, orange, yellow, green, blue, and purple. It is the most beautiful thing in the sky!

At night, I look out of my window again. The moon is big and round. I can see stars. They twinkle. I close my eyes and dream about flying in the sky.

Comprehension Quiz

1. What gives us light during the day?
 - A) The moon
 - B) The stars
 - C) The sun
 - D) The clouds

2. What do we see in the sky at night?
